Case No. 94-148

I strongly object to
the proposed Cellular Tower
being put up in my
Neighborhood.

It is to be constructed
between Rector Lane and
my street, Embassy Lane.

This would be an eye
sore for our residence and
neighbors. This isn't something
you would want to see
while sitting in the back yard,
which faces Rector Lane.

The tower could lower
property value and could
be a hazard during bad
electrical storms. Could also
interfere with our television,

Radio and phone reception.

This tower belongs in
an open field, away from
any residential area.

I am strongly against
the construction of this tower
in my neighborhood.

RE: Case No. 94-149

To Whom It May Concern:

In response to the attached letter from W. Brent Rice, Counsel for Contel Cellular of Kentucky, Inc., we contacted your office and was advised there would be a micro wave dish installed at 2317 Rockford Lane. Please advise why this was not mentioned in the letter from Mr. Rice. We are very concerned about radiation. Also, will this decrease the value of our property and affect our telephone and television reception? Another concern is children climbing on this tower.

We would appreciate a response as we are not in agreement with this proposed construction.

Sincerely,

Boyd Amburgey

RE: **Public Notice - Public Service Commission of Kentucky,
Case No. 94-149**

Dear Mr. and Mrs. Amburgey:

This letter is to inform you that Contel Cellular of Kentucky, Inc., which does business as Cellular One, has applied to the Public Service Commission of Kentucky for a Certificate of Public Convenience and Necessity to construct and operate a new cell facility to provide cellular radio telecommunication service. The facility will include a 150' self-supporting tower with attached 13' whiplike antennas extending upwards for a total height of 163' and an equipment shelter located at 2317 Rockford Lane, Louisville, Jefferson County, Kentucky. A temporary cellular radio antennae approximately 80' in height will be used at the referenced location until such time as the Public Service Commission approves or disapproves the Application submitted by Cellular One. A map showing the location of the temporary facility and the proposed new cell facility is enclosed. This notice is being sent to you because you own or use property that is located within a 500' radius of the proposed monopole.

The Commission invites your comments regarding the proposed construction. Also, the Commission wants you to be aware of your right to intervene in this matter. That right must be exercised within 20 days of the date of this letter as shown above.

Your comments and request for intervention should be addressed to: Executive Director's Office, Public Service Commission of Kentucky, Post Office Box 615, Frankfort, KY 40602. Please refer to Case No. 94-149 in your correspondence.

Sincerely,

W. Brent Rice
Counsel for Contel Cellular of
Kentucky, Inc.

SIR:

This is in response to the proposed cellular antennae site which has been proposed at 2317 Rockford Lane, Louisville Jefferson County, Kentucky.

I am strictly opposed to any such antennae to be constructed in this area for the following reasons:

1. It will lower the property value of my home you would only have to sit out on my deck to see this monstrosity.
2. Reception on my portable phone will be disturbed greatly, possibly even to the point of being useless.
3. This antennae will light up at night and surrounding structures.
4. Will possibly interfere with radio and TV reception.
5. The medical profession has not fully determined the health effects of such devices.
6. I cannot see where this is a public necessity.
7. Cellular phone in automobiles should be outlawed. Has any survey been done to see how many were involved or caused accidents.
8. This is a residential area. The proposed fence protection would only serve as a challenge for children to climb not a prevention. and may cause serious injury to the children.

Thanks for your time

Dear Sir:

The health concerns of this tower need to be addressed. Is there any information concerning the health effects on a person in a tanning bed? What are the effects of this tower on people working in the area in which the tower is located for a long period of time?

Wednesday, April 20, 1994, I tried to call the attorney listed on this letter to find out who to contact at Contel Cellular about my questions. As of this date I have not had my phone call returned.

Sincerely,

Chris Hall
President
